

Business Valuation lite

GPG Financial Services

We now offer a valuation-on-a-page report that will provide an indicative value of your business.

The report is intended for internal use only, and would be used to provide the entrepreneur with an indicative valuation of the worth of their business, which can then be used for internal discussions.

Cost of report: R2, 000.00

The client provides the following information:

- 1. Financial statements for the last two years.**
- 2. One year-out projected sales revenue and profit before tax**
- 3. Proposed capital spend one year out**
- 4. Projected sales revenue growth rates over next 2 to 3 years**
- 5. Current Value of immovable property**
- 6. Strengths of the business**
- 7. Head winds facing the industry over next 2 to 3 years.**

The report will provide a value of the business based on the one-period income capitalisation method, public company comparative method or the Asset / Cost method of valuation, using the highly respected American Society of Appraiser's (ASA) valuation methods.

Porter's 5 Forces analysis of the industry's competitive landscape will be provided to frame the valuation.
